DISCUSSION ITEMS:

1. Charitable Prescriptions Drug Recycling Program

The Board reviewed H.B. 236 and 58-17b-903 Charitable Prescription Drug Recycling program. The definition is in statute. The Board needs to establish classifications, requirements and standards in rule. This registration will be in addition to the full license and the controlled substance license the licensee already holds. Mr. Ishihara will draft language for review.

2. Central Processing

The Board reviewed 58-17b-102 and the proposed language change in R156-17b-102 and R156-17b-614f. The Board noted that centralized prescription processing means the processing by a pharmacy of a request from another pharmacy to fill or refill a prescription drug order or to perform processing functions such as dispensing, drug utilization review, claims adjudication, refill authorizations, and therapeutic interventions. Mr. Ishihara will draft language with suggested changes.

3. Third Party Logistic Providers

Mr. Ishihara stated that currently the third party logistic providers (3PLs) are required to obtain a Pharmacy class C license. Mr. Ishihara noted that because FDA has not established guidelines yet and it is unknown when they will get these guidelines established, the Board may consider making this a class E and define the requirements as meeting FDA guidelines. Mr. Ishihara will draft language for the Board to review.

Not on the agenda:
